

# Anniversary of the Rural Support Service of Latvia!

Published: 01.04.2022.

[Other services](#)

Year 2022 is special for the Rural Support Service of Latvia (RSS) - on April 1 have passed 22 years since establishment. Main task of RSS is invariable - we work for the rural development of Latvia, administering the European Union and state funding thoughtfully and responsibly.

During these years, we have constantly improved the range of services provided, the technology usage for daily work, we have always been open to our clients and partners. New, efficient solutions have been introduced to make all services convenient and easily accessible to our clients. We focus on collaboration, support and advice. Only because of persistent work and determination, we have become a reliable and professional partner you trust.

RSS Director Ģirts Krūmiņš: *"I would like to thank our colleagues from the Ministry of Agriculture in Latvia, farmer, forester and fishermen organizations, cooperation partners for providing advice and support for our development and growth. We will continue to do our job, hear our clients and always be ready for help. RSS clients and partners are our driving force and support!"*

We are pleased about the performance, evaluation and feedback we receive in our daily communication with our clients. We are convinced that together we will be able to do a lot!
