

# Machinery Price Catalog

Published: 17.10.2022.

The Ministry of Agriculture in cooperation with the Latvian Rural Consultation and Education Center (LRCEC) and the Rural Support Service of Latvia (RSS) designed the [Machinery Price Catalog](#) to make the purchase of machinery and equipment for farmers more simple and convenient. The catalog is available as electronic tool at RSS website and is linked with the [Electronic Application System \(EAS\)](#).

The Catalog will facilitate the beneficiaries' procurement process for the purchase of machinery and equipment in the sub-measure "Support for Investments in Agricultural Holdings" for transition period 2021 - 2022 and simplifying the control functions of RSS.

 [Guidelines Electronic Application System \(EAS\) section „Catalogue of machinery and equipment – application submission”](#)
