

# State & EU Support

Published: 18.07.2022.

The Rural Support Service of Latvia is a state administration institution responsible for implementation European Union and state support policy for agriculture, fisheries, forestry and rural development.

According to its competence, RSS administrates European Union and state support, accepts and evaluates applications, takes decisions on funding granting or refusal and registers paid support and use control.

Our fields of responsibility are land, forests and water – countryside people life and work in Latvia!
